

YEAR 7 APPLICATION FORM

(Please ensure all information is provided)

This program has been tailored to meet the needs of students who have demonstrated a very high level of capacity in the areas of Science and Mathematics. In Science students are accelerated through and extended on the respective year level coursework, engaging in cognitively more demanding concepts. In Mathematics students are progressed to the next year of study to facilitate the start of Year 11 Mathematics B in Year 10. Students are provided with opportunities in both Mathematics and Science to engage in S.T.E.M. (Science, Technology, Engineering and Maths) programs such as Robotics, Experience University program at QUT, Investigation of Fresh Water Ecosystems for advanced students at Toohey Forest EEC based at Griffith University, SPARQ-Ed at the Transitional Research Institute attached to the PA hospital where students undertake investigations involving cancer cell research, amongst a range of other contemporary and challenging programs. The S.T.E.M. opportunities are nominated as they become available and could change from year to year.

To be eligible for entry to this program, students must be able to demonstrate their capacity to be highly successful in the areas of Science and Mathematics.

To apply, students must complete the **EXCEL** application form and sit an aptitude test that will be conducted by the school. Aptitude testing will be conducted during Term 3. Actual days and times for Term 3 are to be advised. We endeavour to hold testing before/after school to avoid loss of school curriculum time.

Students will be selected based on the following criteria:

- School academic reports & NAPLAN test results
- Primary School recommendation
- Other relevant information e.g. ICAS Science/Mathematics competition results
- Additional test results from Aptitude test sessions held during Term 3
- Interview if required

Applications must be submitted to Centenary SHS by COB Monday, 31st July 2017 with accompanying evidence.

The letter offering a place in our **EXCEL** program for 2018 will be sent to the successful applicants by the end of October.
