

Certificate Courses for Students Connected to the Diverse Learning Department

FSK10113 Certificate I in Access to Vocational Pathways

This qualification is available to students who are connected to the Diverse Learning Department. This course will provide the learner with the foundation skills and knowledge required for initial employment or work placement. Students will develop the interpersonal and communication skills to work alongside others and the ability to learn from these interactions. The program will be delivered through project-based activities and class-based tasks that will simulate an industry environment. In addition, all students may be involved in work placements over the course or simulated work environments.

AHC10216 Certificate I in AgriFood Operations

This qualification is available to students who are connected to the Diverse Learning Department. This course is an entry-level qualification aimed at individuals entering the agriculture, horticulture and conservation and land management industries. It allows individuals to develop basic skills and knowledge to prepare for work. They may undertake a range of simple tasks, technical skills and knowledge under close supervision.
